NPPTL COVID-19 Response: International Respirator Assessment

Manufacturer: Anhui Sunshine Home Textile Co., Ltd.
Model Tested: YSM-2008KN
Date Tested: August 24, 2020

These findings pertain to the Anhui Sunshine Home Textile Co., Ltd., model YSM-2008KN. The packaging and labeling for this product indicate that it meets GB2626-2006 (the Chinese standard for Respiratory Protective Equipment – Non-Powered Air-Purifying Particle Respirator).

Ten respirators were submitted for evaluation. The samples were tested using a modified version of NIOSH Standard Test Procedure (STP) TEB-APR-STP-0059. This modified assessment plan can be found here.

No certificate of approval was provided with the samples received; therefore, the authenticity of the claims cannot be validated.

The maximum and minimum filter efficiency was 75.30% and 40.70%, respectively. All ten respirators measured less than 95%.

While the above-listed product classification has similar performance requirements to NIOSH-approved devices, NIOSH does not have knowledge about the sustained manufacturer quality system and product quality control for these products. NIOSH also does not have knowledge about the product’s handling and exposures after leaving its manufacturer’s control.

In addition, this product is an ear loop design. Currently, there are no NIOSH-approved products with ear loops; NIOSH-approved N95s have head bands. Furthermore, limited assessment of ear loop designs, indicate difficulty achieving a proper fit. While filter efficiency shows how well the filter media performs, users must ensure a proper fit is achieved.

This assessment is not a part of the NIOSH respirator approval process and will in no way lead to or preclude NIOSH approval through the official approval process. This assessment was developed as an assessment of the filter efficiency for those respirators represented as certified by an international certification authority, other than NIOSH, to support the availability of respiratory protection to US healthcare workers due to the respirator shortage associated with COVID-19. Only particulate filter efficiency was assessed.

The results provided in this letter are specific to the subset of samples that were provided to NPPTL for evaluation.

These results will be used to update the CDC guidance for Crisis Capacity Strategies (during known shortages).
Test: Modified TEB-APR-SP-0059
Date Tested: August 24, 2020
Report Prepared: August 24, 2020
Manufacturer: Anhui Sunshine Home Textile Co., Ltd.
Item Tested: YSM-2008KN
Country of Certification: China (GB2626-2006)

Minimum Filter Efficiency: 40.70%  Maximum Filter Efficiency: 75.30%

- The test method utilized in this assessment is not the NIOSH standard test procedure that is used for certification of respirators. Respirators assessed to this modified test plan do not meet the requirements of STP-0059, and therefore cannot be considered equivalent to N95 respirators that were tested to STP-0059.
- Respirators tested may not be representative of all respirators with the same certification mark. NIOSH has no control over suppliers and distributors of respirators certified by other national or international parties.
- This assessment is not a confirmation that it conforms with any or all of its specifications in accordance with its certification mark.
- This assessment was not a part of the NIOSH approval program. These results do not imply nor preclude a future approval through the NIOSH respirator approval program.
KN95 Self Priming Filter Protection Mask

Product name: Self Priming Filter Protection Mask
Model: YSM-2008KN
Main raw materials: Nonwoven fabric + KN95 filtering meltblown fabric + Hot air cotton
Execution standard: GB2626-2006
Date of production: see certificate of quality
Recommended Duration: no more than 4 hours
Shelf life: three years

ANHUI SUNSHINE HOME TEXTILE CO., LTD.
Address: Fangfang town east industrial park, Tongcheng city, Anhui province, China
Tel: 0086-556-6738999
Certificate of conformity

Product name: Non-Medical folding mask face mask (Non-sterile) (KN95)

Specifications: 15.5cm*10.5cm

Production batch: 2020M4JK1
Production date: 2020/04/18

Execution standard: GB2626-2006

Product performance: PFE ≥95%, Reach KN95 level

Main raw materials: 54% non-woven fabric, 24.5% melt-blown fabric, 21.5% hot air cotton

TEST: Qualified

Shelf life: Three years

Manufacturer: Anhui Sunshine Home Textile Co., Ltd.
Address: Fangang town east industrial park, Tongcheng city, Anhui province, China

Made in China
