Peter M. Turcic, Director
Division of Energy Employees Occupational
Illness Compensation
U.S. Department of Labor
Room C-4511
200 Constitution Avenue, N.W.
Washington, D.C. 20210

Dear Mr. Turcic:

On behalf of the Secretary of the Department of Health and Human Services (HHS), and as required by 42 C.F.R. pt. 83.17(c), I am notifying you of the final effect of the HHS decision to designate a class of employees at the Y-12 facility, in Oak Ridge, Tennessee as an addition to the Special Exposure Cohort (SEC) under the Energy Employees Occupational Illness Compensation Program Act of 2000. On August 25, 2005, as provided for under 42 U.S.C. § 7384q(b), the Secretary of HHS designated the following class of employees as an addition to the SEC:

Department of Energy (DOE) employees or DOE contractor or subcontractor employees who worked in uranium enrichment operations or other radiological activities at the Y-12 facility in Oak Ridge, Tennessee from March 1943 through December 1947 and who were employed for a number of work days aggregating at least 250 work days either solely under this employment or in combination with work days within the parameters (excluding aggregate work day requirements) established for other classes of employees included in the SEC.

This designation became effective on September 24, 2005, as provided for under 42 U.S.C. § 7384/l(14)(C). Hence, beginning on September 24, 2005, members of this class of employees, defined as reported in this notice, became members of the Special Exposure Cohort.

Pursuant to 42 C.F.R. pt. 83.16(b), the petitioners may contest the health endangerment determination by submitting a challenge in writing within 30 days of receiving notice of the HHS designation.

Sincerely,

[Larry J. Elliott, MSPH, CIH]
Director
Office of Compensation
Analysis and Support
