

# TEB Systems Support (DEIMS) – FY12 (927ZKQV)

## Objective

Update and maintain the electronic information management system to effectively manage and monitor technical evaluation activities

## Applicable Standards

42 CFR 84

## Key Partners

- Manufacturers

## Stakeholders

- Manufacturers
- Respirator Users

## Project Scope

- Develop business processes for:
  - Maintain Certified Equipment List (CEL)
  - Modify DEIMS to accommodate ISO 17025 compliance
  - Standard Application Form (SAF) updates
    - Greater platform independence
    - Greater ease of use
  - Manufacturers database/Assembly Matrix
  - Calibration tracking software

## Milestones

- 4Q FY11 – Update SAF to a Web application

## Outputs

- Standard Application Form (SAF) update to deal with Access version compatibility (eliminate Access requirement)
- Updates to test data sheets for ISO 17025 compliance
- Monthly reports for progress tracking (metrics data source)
- Deployment off-the-shelf calibration tracking software

## Outcomes

- Dependability and reliability of information
- Availability of information
