

LTFE - Special Respirators – FY13 (921Z6PR)

Objective

Apply lessons learned from the Long-Term Field Evaluation of SCSRs in extending the process of post deployment evaluations to other types of respirators

Applicable Standards

- 42 CFR, Part 84, including statements of standard
- NFPA 1981

Key Partners

- NFPA

Stakeholders

- Manufacturers, Users

Project Scope

- Determine respirators to evaluate
- Select performance test requirements
- Develop protocol

Milestones

- 3Q FY13 – Report on Navy EEBDs
- 4Q FY13 – Evaluation of next selected respirators
- 1Q FY14 – Evaluation of next sample of Navy EEBDs

Outputs

- Problem reports to post certification
- Standard Test Procedures (STPs)
- Field evaluation reports

Outcomes

- Possible improvements to existing standards
- Better understanding of user impact
