

# PPT Cross Sector – FY15 (93902XM)

## Objective

The Mission of the PPT cross sector program is to prevent work-related injury, illness, and death by advancing the state of knowledge and application of personal protective technologies (PPT).

## Applicable standards

ISO	ANSI	ISEA	EN
NFPA	ASTM	BSI	42 CFR 84

## Key Partners

AIHA	IOM	NIST
ISEA	OSHA	

## Stakeholders

Emergency Response Workers	Workers who use PPE
Employers	PPE manufacturers
Union and labor Organizations	Healthcare workers

## Project Scope

Develop an integrated PPT Cross Sector Program within NIOSH that crosses all sectors and PPT types with activities that aim to reduce exposures to inhalation hazards, dermal hazards, and injury hazards.

## Milestones FY15

- 2Q15 – Support webinar on Combination Unit Respirators (CURs)
- 3Q15 – Support COPPE Workshop on CURs
- 4Q15 – Assist in the development of the report to Congress on CURs
- 1Q16 – Finalize all PPT webpages and post
- 2Q16 – Support second decade of NORA review
- 2Q16 – Update PPT Program goals and guidance based on third decade of NORA

## Outputs

- PPT Program Implementation Plan finalized (Apr 2010)
- Professional Judgment Budget for PPT (updated Jan 2011)
- Report to the NIOSH Board of Scientific Counselors (Nov 2011)
- CDC Quarterly Review Documents (updated Nov 2013, February 2014)
- New GPRA Audit measure – updated information sent (Apr 2012)
- NPPTL Successes and Impacts (updated Mar 2012)
- Board of Scientific Counselors Report on PPT Progress (May 2014)
- PPT Program Guidance (updated Feb 2015 for FY16)
- Submitted NPPTL Summary to the Union (Feb 2013, Feb 2014)

## Outcomes

- NA evaluation of PPT Program
- Validate relevance of PPT Program activities
- Increase impact of PPT Program
