

# LTFE - Special Respirators – FY15 (921Z6PR)

## Objective

Apply lessons learned from the Long-Term Field Evaluation of SCSRs in extending the process of post deployment evaluations to other types of respirators

## Applicable Standards

- 42 CFR, Part 84, including statements of standard
- NFPA 1981

## Key Partners

- NFPA
- US Navy
- ECBC

## Stakeholders

- Manufacturers, Users

## Project Scope

- Determine respirators to evaluate
- Select performance test requirements
- Develop protocol

## Milestones

- Complete Reports on Navy EEEDs
- Develop Strategy for evaluation of next selected respirators

## Outputs

- Selection logic and guidelines document
- STPs
- Field evaluation reports

## Outcomes

- Possible improvements to existing standards
- Better understanding of user impact
