

# Supplied Air Respirators (SAR) – FY15 (927PP20\_SAR)

## Suspended

### Objective

Develop revised 42 CFR 84 Subpart J supplied air respirator standard

### Applicable standards

- 42 CFR 84 Subpart J
- ISO 17420-1.2

### Key Partners

- Respirator manufacturers
- DHS/NIST
- RDECOM
- OSHA
- ISEA
- NFPA

### Stakeholders

- Respirator users
- Respirator manufacturers
- OSHA

### Project Scope

- Update 42 CFR Part 84 Subpart J
- Inclusion of CBRN
- Participate in the development of ISO 17420-1.2

### Milestones FY15-FY16

- Complete comparison of ISO17420-1.2 and 42 CFR 84 Subpart J – 3Q FY15
- Suspended

### Output

- Updated 42 CFR Part 84 Subpart J
- CBRN performance requirements
- Acceptance in full or part ISO17420-1.2

### Outcomes

- Allow for greater flexibility in SAR design while providing improved performance
- Availability of SAR for use in CBRN environments
- Harmonization with international standards
