

The National Institute for Occupational Safety and Health presents a:

# Manual Materials Handling Workshop

Engineering Solutions for Manual Lifting Jobs

**MOVED!**

## NEW WORKSHOP DATE and LOCATION

FEBRUARY 8-9, 2012 Georgia World Congress Center  
Atlanta, Georgia. For more information visit <http://www.modexshow.com/>

## Workshop Details

Join your fellow safety and loss prevention colleagues by attending this first biennial MMH Workshop dedicated to rethinking the logistics of material handling for the retail, wholesale, and warehousing environment which encompasses over 21 million employees and 1.6 million workplaces.

This Workshop will provide a unique opportunity to see and hear from internationally recognized experts who design material handling devices to meet the needs for efficiency, economy, and safety.
