

Table AI-3. National estimates of agricultural work-related injuries to adults (20 years and older) on US farms by type of adult worker and sex

Type of Adult Worker	Sex	2001	2004	2009	2012	2014
All working adults	Male	66,017	62,284	32,112	42,171	39,684
	Female	17,683	14,409	14,851	18,108	13,459
	Unknown	3,802	3,636	368	778	803
Household	Male	43,452	46,017	22,700	28,842	26,818
	Female	13,208	12,897	12,489	15,145	11,207
	Unknown	0	0	0	0	0
Other working adults (1)	Male	22,565	16,267	9,412	13,329	12,867
	Female	4,475	1,512	2,362	2,963	2,252
	Unknown	3,802	3,636	368	778	370 <sup>†</sup>
Total (2)	All working adults	87,503	80,329	47,332	61,057	58,385
	Household	56,661	58,914	35,190	43,987	38,024
	Other working adults (1)	30,841	21,414	12,142	17,070	20,360

† This estimate is considered unstable due to a high standard error

1 Includes work-related injuries to hired, visiting, and unknown adults

2 Estimates may not sum to total due to rounding
