

Managing Occupational Exposures to HIV & Hepatitis?

PEP line

The **PEP line** offers health care providers around-the-clock advice on managing occupational exposures to HIV and hepatitis B & C.

Who should call the PEP line ?

Clinicians caring for health care workers who are exposed to blood-borne pathogens. Exposed health care workers may call the **PEP line** but are encouraged to first seek prompt local medical attention.

National Clinicians' Post-Exposure Prophylaxis Hotline

1-888-448-4911
24 hours a day • 7 days a week

For questions regarding the clinical management of HIV/AIDS, contact the

Warmline
