After leaving a scene where illicit drugs were present:

1. If wearing respiratory protection, remove respirator.
2. Remove gloves.
3. Use soap and water to wash and rinse skin. Do not use hand sanitizer.
4. Remove contaminated clothes and shower immediately.
5. Launder all contaminated clothing. NEVER take contaminated clothes home.
6. Decontaminate or dispose of personal protective equipment per your department policy.

*Illicit drug products include but are not limited to opioids, cocaine, cannabinoids, methamphetamines, heroin, cathinones, etc. Learn more at: cdc.gov/niosh/topics/fentanyl/risk
