

# Fatality Rates/100,000 Fulltime Equivalents (FTE) by Age Group, United States, 1994-2003

Presentation by FTE rather than number of workers addresses the part-time nature of most youth employment.

Fatalities/100,000 FTE

\* Rate for 15 year olds is for 1994-2004.

Source: Bureau of Labor Statistics' Census of Fatal Occupational Injuries. Reported in Monthly Labor Review, October 2005, by Windau and Meyer.
