

PODCAST

Communicating and Collaborating For the Right Lab Test and Diagnosis

This podcast is designed to help healthcare providers work with laboratory professionals in making informed decisions on selecting the most appropriate laboratory test.

Listen to this 30 minute scenario-based skit between two health professionals to gain insight on the importance of communicating clearly and collaborating closely for the right laboratory test and diagnosis.

Target Audience

- Health Professionals

Objectives

- Describe at least one diagnostic error related to coagulation testing
- Identify at least two clinical laboratory challenges experienced by physicians
- List two ways to improve team-based care among laboratory professionals and physicians

Registration and Continuing Education

- To register, visit <http://www.cdc.gov/ophss/csels/dls/eblm/index.html#CLIHC>
- To receive continuing education, you must complete an evaluation and pass a post-test with a minimum score of 80%:
