

ASSESSING AND ADDRESSING OPIOID USE DISORDER (OUD)

WB4664

PROGRAM DESCRIPTION: This enduring activity is designed to increase knowledge and change competency of clinicians on identifying patients at increased risk for opioid overdose and practices and strategies for offering naloxone.

OBJECTIVES:

At the conclusion of the session, the participant should be able to:

1. Describe the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM-5), assessment criteria that indicate a diagnosis of opioid use disorder (OUD).
2. Describe how OUD can be discussed with patients.
3. Describe the types of medications for opioid use disorder (MOUD).
4. Recognize the importance of care coordination and interprofessional collaboration in the treatment of opioid use disorder.

FACULTY/ CREDENTIALS:

Christina A. Mikosz, MD, MPH, Lead Medical Officer, Division of Overdose Prevention, National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention

Molly Dowling, MPH, Health Communications Specialist, Division of Overdose Prevention, National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention
