## The Role of Block Grant Funding in Vermont

In 1981, Congress authorized the Preventive Health and Health Services (PHHS) Block Grant. The PHHS Block Grant gives 61 grantees—all 50 states, the District of Columbia, 2 American Indian tribes, and 8 U.S. territories—the flexibility to develop programs to meet local needs.

States are expected to align their programs with the latest Healthy People national goals and objectives and to address basic health concerns related to chronic disease, unintentional injuries, and other areas. The PHHS Block Grant can help states

- Address important health concerns that lack sufficient funding.
- Respond rapidly to emerging health threats in states.
- Meet their own unique public health needs and challenges in innovative and locally defined ways.

## PHHS Block Grant Supports Vermont Healthy People Priorities

Now in its 33<sup>rd</sup> year, the PHHS Block Grant program currently uses Healthy People 2020 goals and objectives. In FY 2012, Vermont used its funds to address four health objective priorities.\*

Health Priority	Funding	Percent
Emergency Medical Services	\$75,000	37.0%
Information Systems	\$54,764	27.0%
Overweight or Obesity in Children and Adolescents	\$45,410	22.4%
Rape or Attempted Rape	\$27,490	13.6%
<b>Total for Vermont</b>	<b>\$202,664</b>	<b>100.0%</b>

\* FY 2012 reflects Healthy People 2010 objectives.
