

Instructions for **ALUMNI**

Dear Alumni,

We sincerely appreciate your interest in participating again in a STOP assignment. As **ALUMNI** the application process is different.

Please note that we only need your updated CV in English (if you are a French speaker, we will need one English and one French CV) and not the application. In your CV, make sure you follow the instructions in our website and include all relevant experience as well as your STOP experience clearly. Please include the STOP team numbers and countries where you served. Different formats or incomplete CV's will not be considered.

Submit your updated and edited CV to: NIPSTOPTEAM@CDC.GOV email box between December 1, 2013 and January 17, 2014.

Note that the STOP Management Team has implemented a new policy that limits the maximum number of STOP assignments to four. If you have already completed four assignments, we will not be able to offer you another assignment and there is no need for you to apply again.

Please be aware that we have very limited spaces for STOP alumni on each team and you may not be selected again.
