

Maternal Mortality Ratios (MMR*) in SMGL-supported districts declined 3x faster than the rest of the country

Uganda

2016 Population: 41.49 million

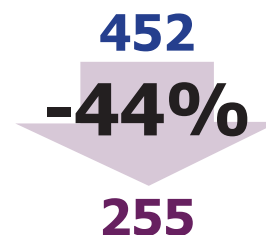

Uganda DHS, 2011 and 2016

SMGL Targeted Districts

2016 Population: 2.09 million

SMGL RAMOS, 2012 and 2016

Addressing the 3 Delays

Helping Mothers Seeking Care

Village Health Team workers engaged in community safe motherhood activities

Baseline = 0
Endline = 3,806

Reaching Delivery Care

Transport vouchers redeemed

Baseline = 1,165
Endline = 11,235
(>80,000 cumulative)

Receiving Quality Care

Facilities providing Basic and Comprehensive Emergency Obstetric and Newborn Care

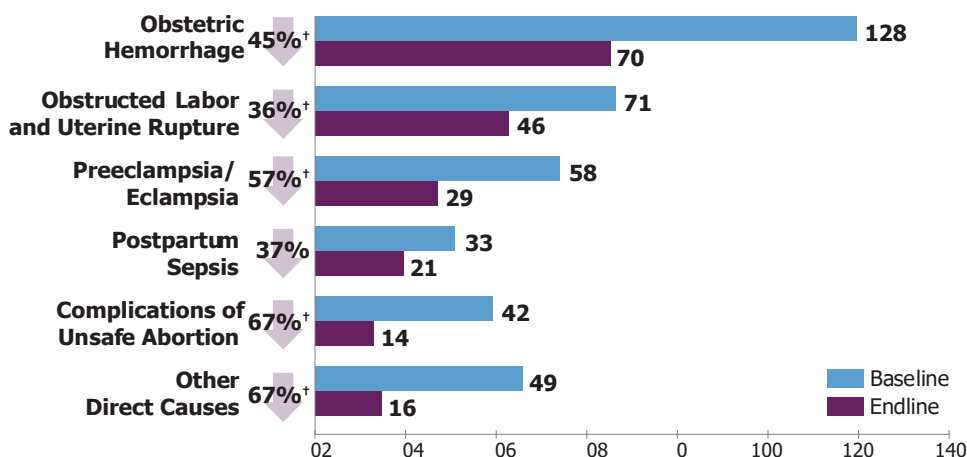

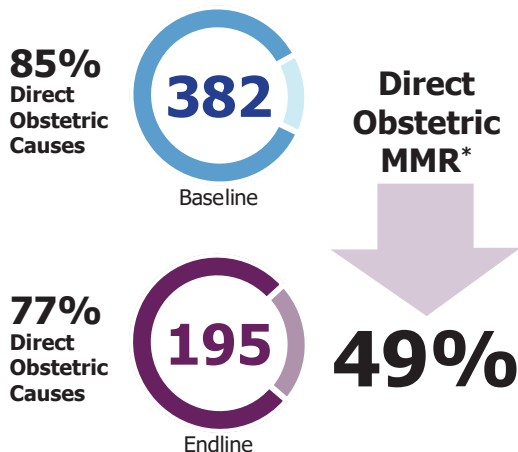

Baseline = 10
Endline = 26

Facility deliveries increased significantly in Uganda SMGL districts

Baseline = 46%
Endline = 67%

All direct obstetric causes of death declined*

* Number of maternal deaths per 100,000 live births
