## Acknowledgements

The Reproductive Health Assessment Toolkit for Conflict-Affected Women was developed by the Division of Reproductive Health (DRH) at the Centers for Disease Control and Prevention (CDC), US Department of Health and Human Services (DHHS). DRH gratefully acknowledges the following for their collaboration and commitment leading to the development of this Toolkit:

- The collaboration and financial support of the United States Agency for International Development (USAID) and the Andrew Mellon Foundation, through the CDC Foundation, for the production and development of the Toolkit.
- Ms. Mary Kay Larson, former Reproductive Health for Refugees Coordinator and leader of CDC's Services Management, Research and Translation Team (SMART), who initiated the development of this Toolkit in 2003.
- Dr. Martha Rogers of the Task Force for Child Survival and Development, developer of the Child Needs Assessment Tool Kit, which was used as a model for this Toolkit. In addition, Dr. Rogers worked with the CDC in the initial stages of Toolkit development.
- Dr. Basia Tomczyk, formerly of the CDC's SMART Team, for her work on the reproductive health surveys that preceded the Toolkit. These surveys contributed to the development of the survey that is contained in this Toolkit.
- Ms. Wyndy Amerson and Mr. Gary Weeks of the CDC, for programming the data entry software and data analysis and for their patience throughout the many changes resulting from pilot tests during development; Mr. Brian Morrow, also of the CDC, for his statistical support; and Dr. Lubna Bhatti, formerly of the CDC, for her assistance in designing the survey and training manual.
- Ms. Michelle Hynes, Ms. Stacy Laswell, Dr. Marianne E. Zotti, and Ms. Van Tong, the primary authors.

DRH would also like to thank the following organizations for their partnership and participation in the pilot testing of the Toolkit in Ethiopia, Democratic Republic of Congo, and Colombia:

Ethiopia: African Medical Research Foundation (AMREF); Administration for Refugee and Returnee Affairs (ARRA), which is part of the Ethiopian government; and the United Nations High Commissioner for Refugees (UNHCR)

Democratic Republic of Congo (DRC): Care International–DRC; CDC Global AIDS Program–DRC; CDC Global AIDS Program Atlanta, Georgia; CDC International Emergency and Refugee Health Branch; DRC Ministry of Health; and the Kinshasa School of Public Health

Colombia: PROSER

Finally, appreciation and gratitude must be extended to all of the women affected by conflict who participated in our pilot tests in Ethiopia, Democratic Republic of Congo, and Colombia.

# TABLE OF CONTENTS

ACKNOWLEDGEMENTS .....	iii
CHAPTER 1: Introduction .....	1
CHAPTER 2: Planning Checklist .....	5
CHAPTER 3: Sampling Instructions .....	11
CHAPTER 4: Training Manual .....	19
Training Agenda .....	22
Module 1: Administrative arrangements .....	24
Module 2: Introduction to the survey .....	26
Module 3: Defining the roles and responsibilities of survey team .....	27
Module 4: Understanding the survey and survey questions .....	28
Module 5: Interviewing techniques and initiating the interview .....	29
Module 6: Practice interviews with role playing .....	30
Module 7: Locator training—overview of process .....	31
Module 8: Locator training—use of forms .....	32
Module 9: Locator training—role playing .....	36
Module 10: Supervisor training .....	37
Module 11: Practice interviews in the community .....	38
Module 12: Review of survey schedule .....	39
Module 13: Data entry—administrative arrangements .....	40
Module 14: Data entry instructions .....	42
Module 15: Data entry and cleaning (supervisors only) .....	43
CHAPTER 5: Analysis Guide .....	45
Key Indicator List .....	47
Analysis Tables .....	56
Background .....	56
Safe motherhood .....	58
Family planning .....	71
Sexual history/sexually transmitted infections (STIs) .....	84
HIV/AIDS .....	89
Gender-based violence .....	97
