

CDC - PERINATAL QUALITY COLLABORATIVES WEBINAR SERIES

WD2399

PROGRAM DESCRIPTION: Seminars are designed to disseminate perinatal health quality improvement strategies employed by high-functioning collaboratives to states in various stages of establishing similar statewide organizations.

OBJECTIVES:

At the conclusion of the session, the participant will be able to:

- Describe the impact of human milk on neonatal morbidity in the neonatal intensive care setting.
- Discuss strategies to improve support for breastfeeding in hospitals, including the WHO/UNICEF Baby-Friendly Hospital Initiative.
- Outline how quality improvement methods can be employed to support changes in practice.
