

Rx Awareness Radio Transcript

Candidate: Jeni

Length: 30 seconds

Jeni: I really want to think the first pill was the problem.

Narrator: Jeni is in recovery from an addiction to prescription opioids.

Jeni: I had backed away from my culture when I was in active addiction, and then when I had fully become in my recovery is when I was like – this is who I am. This is my culture and I am going to practice it. There was a lot of healing with it.

Narrator: If you or someone you know is struggling, there is hope. Recovery is possible. Visit [cdc.gov/RxAwareness](https://www.cdc.gov/RxAwareness) or contact your local health provider.
