

New York City, New York (N=198)

Figure A. Age of GISP participants, in years, 2010

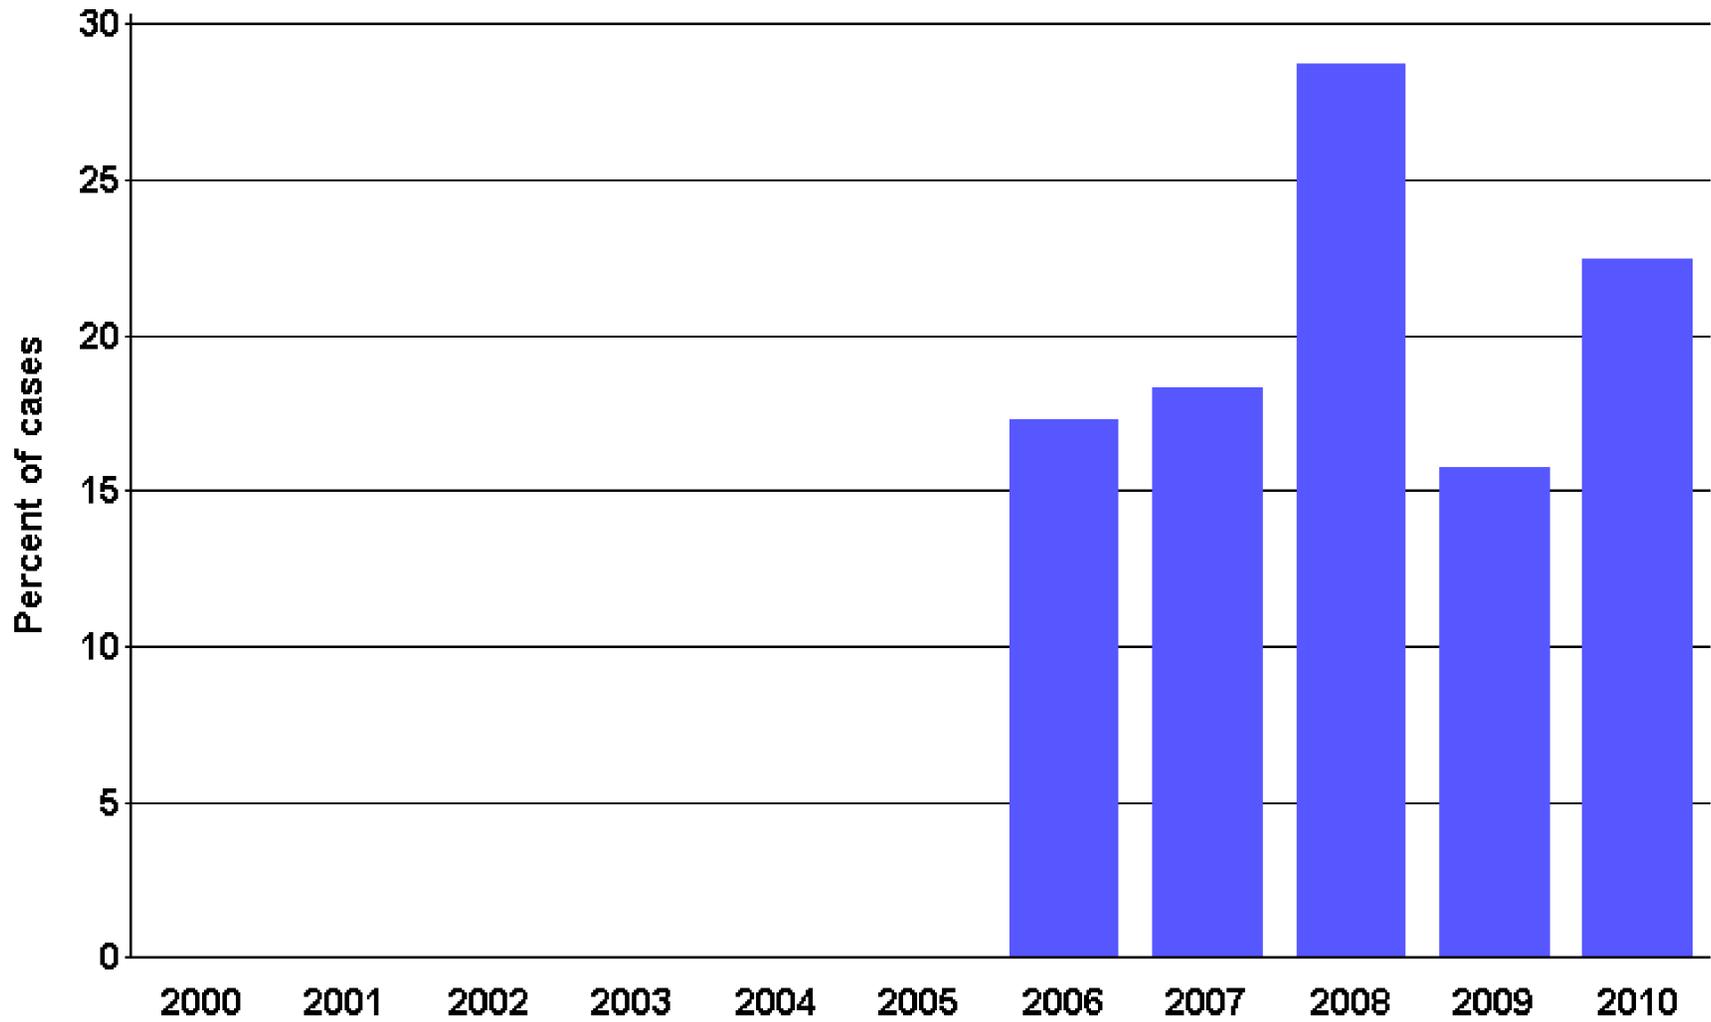

New York City, New York (N=198)

Figure B. Race/ethnicity of GISP participants, 2010

# New York City, New York

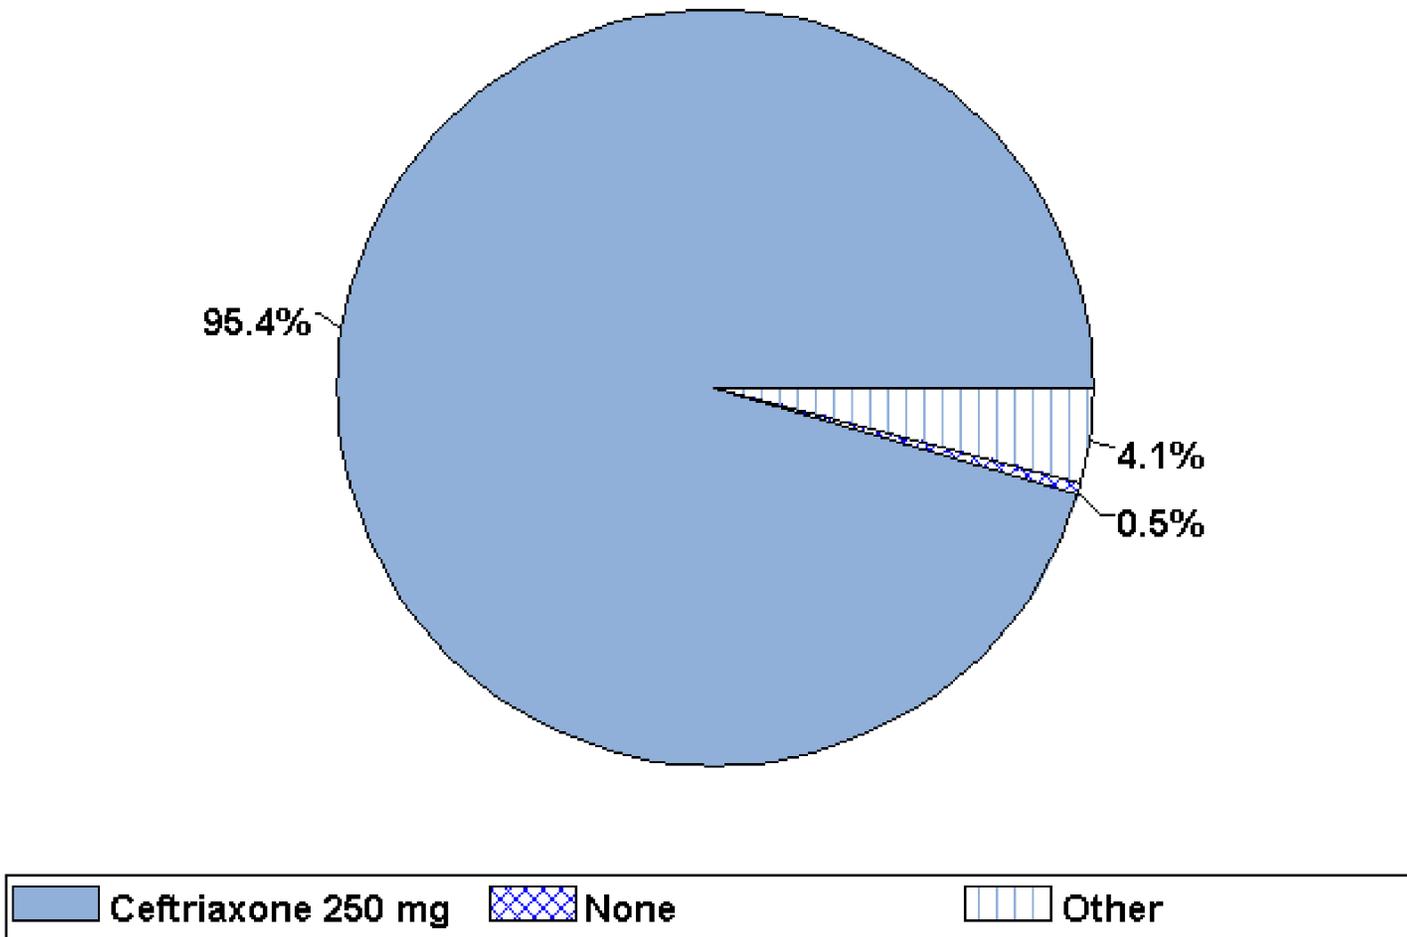

Figure C. Percentage of GISP participants identifying as men who have sex with men, 2000-2010\*

\*Note: Site participated in GISP from 2006-2010.

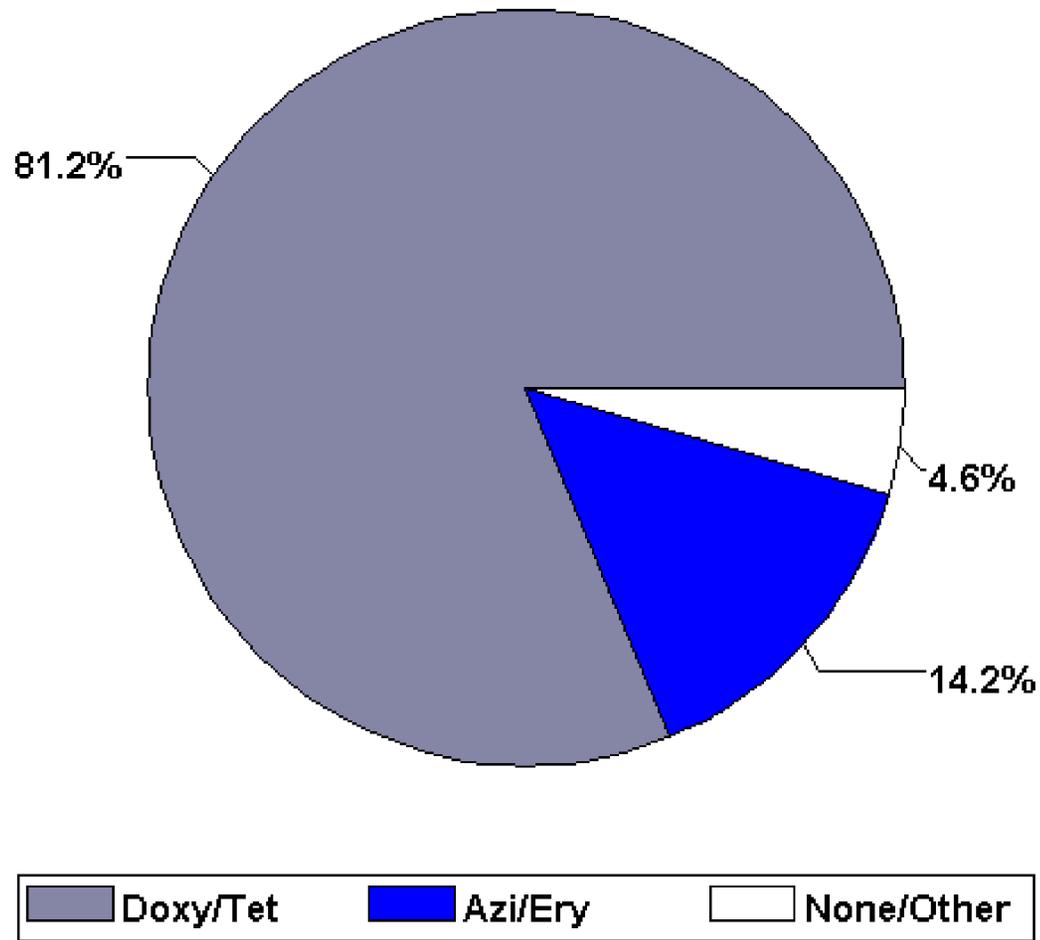

New York City, New York (N=198)

Figure D. Drugs used to treat gonorrhea among GISP participants, 2010

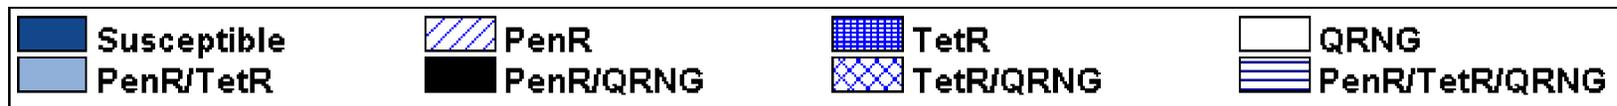

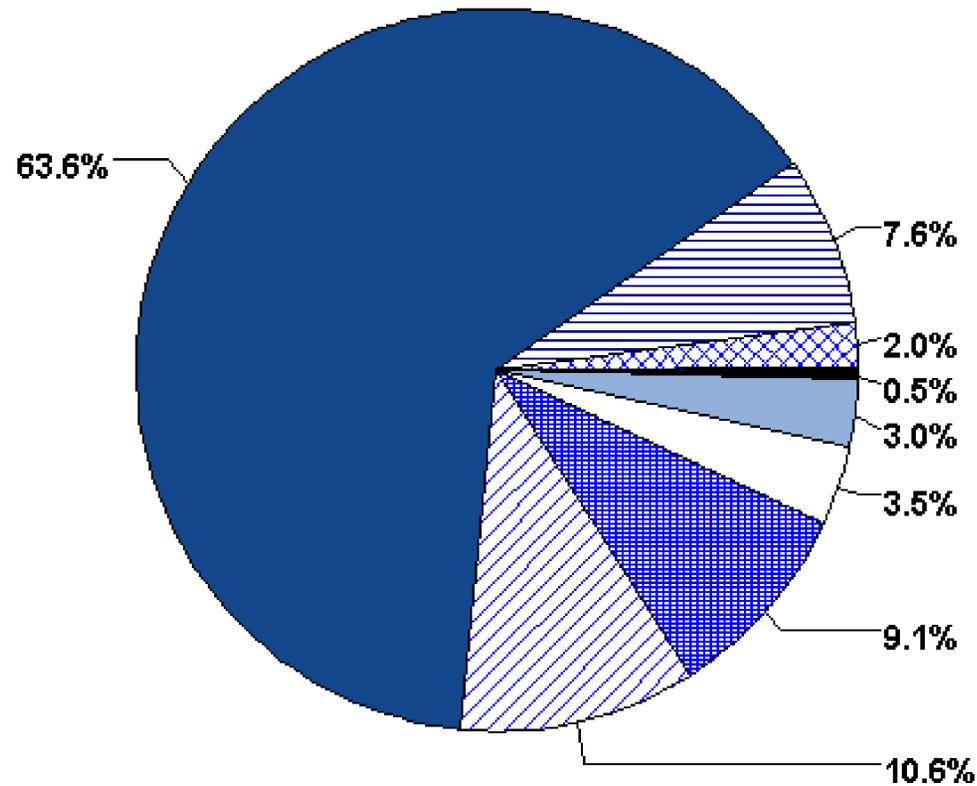

New York City, New York (N=198)

Figure E. Drugs used to treat *Chlamydia trachomatis* infection among GISP participants, 2010

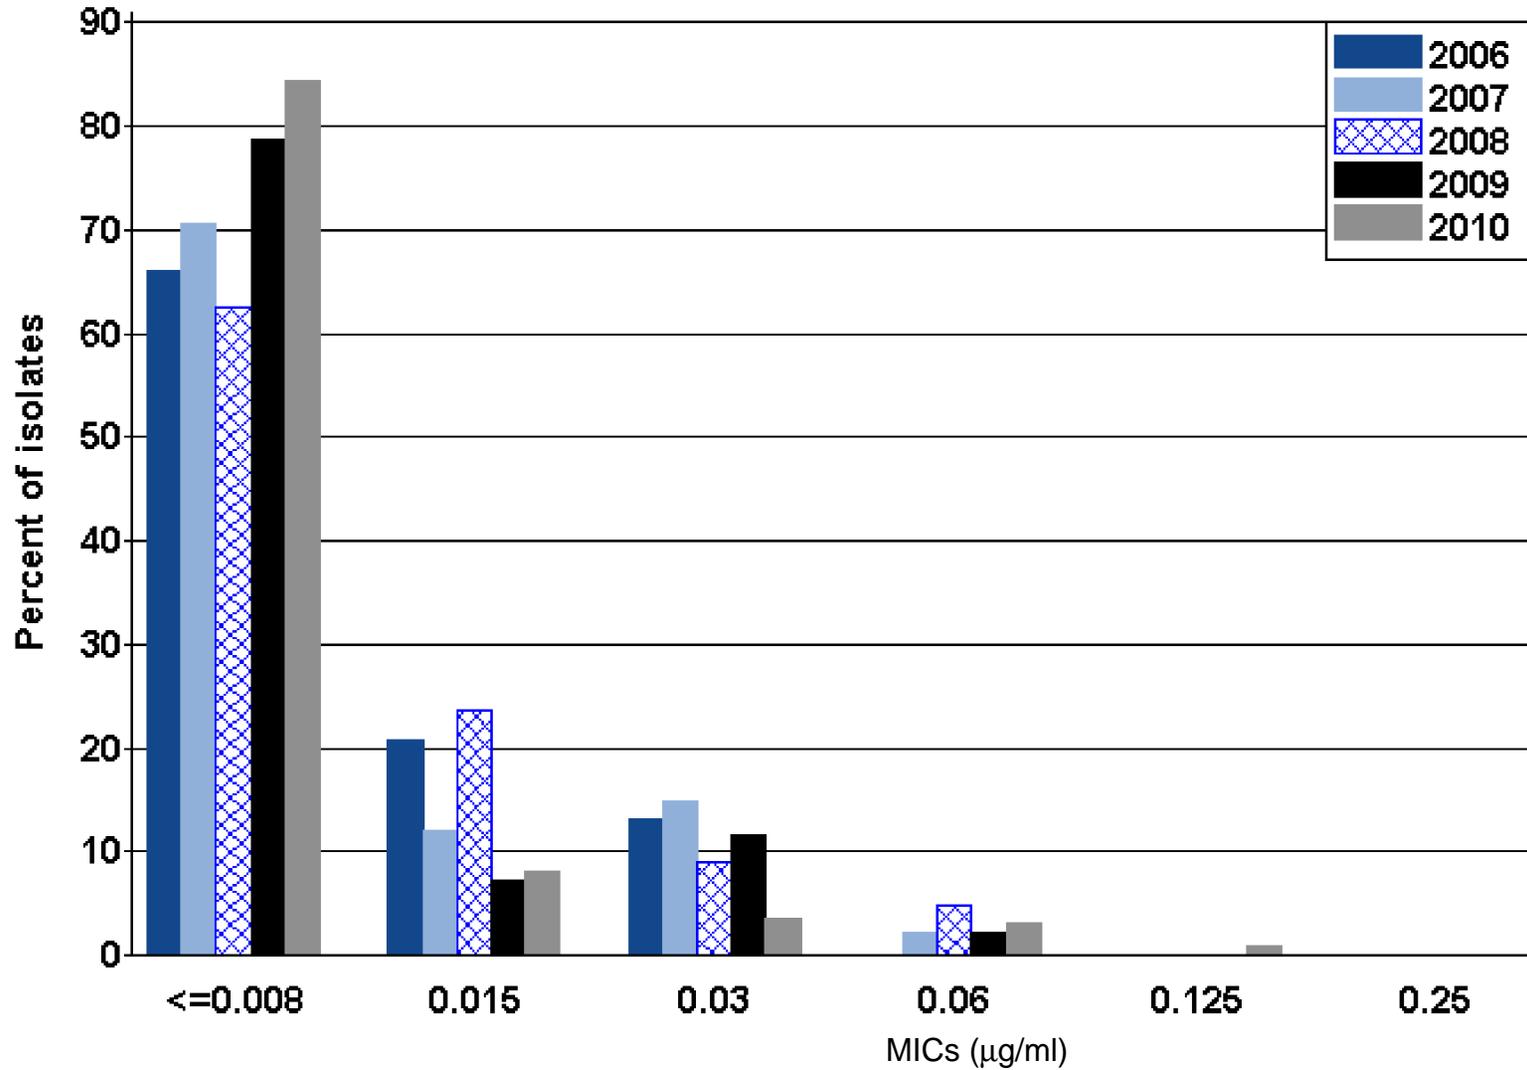

New York City, New York (N=198)

Figure F. Resistance to penicillin, tetracycline, and ciprofloxacin among GISP isolates, 2010

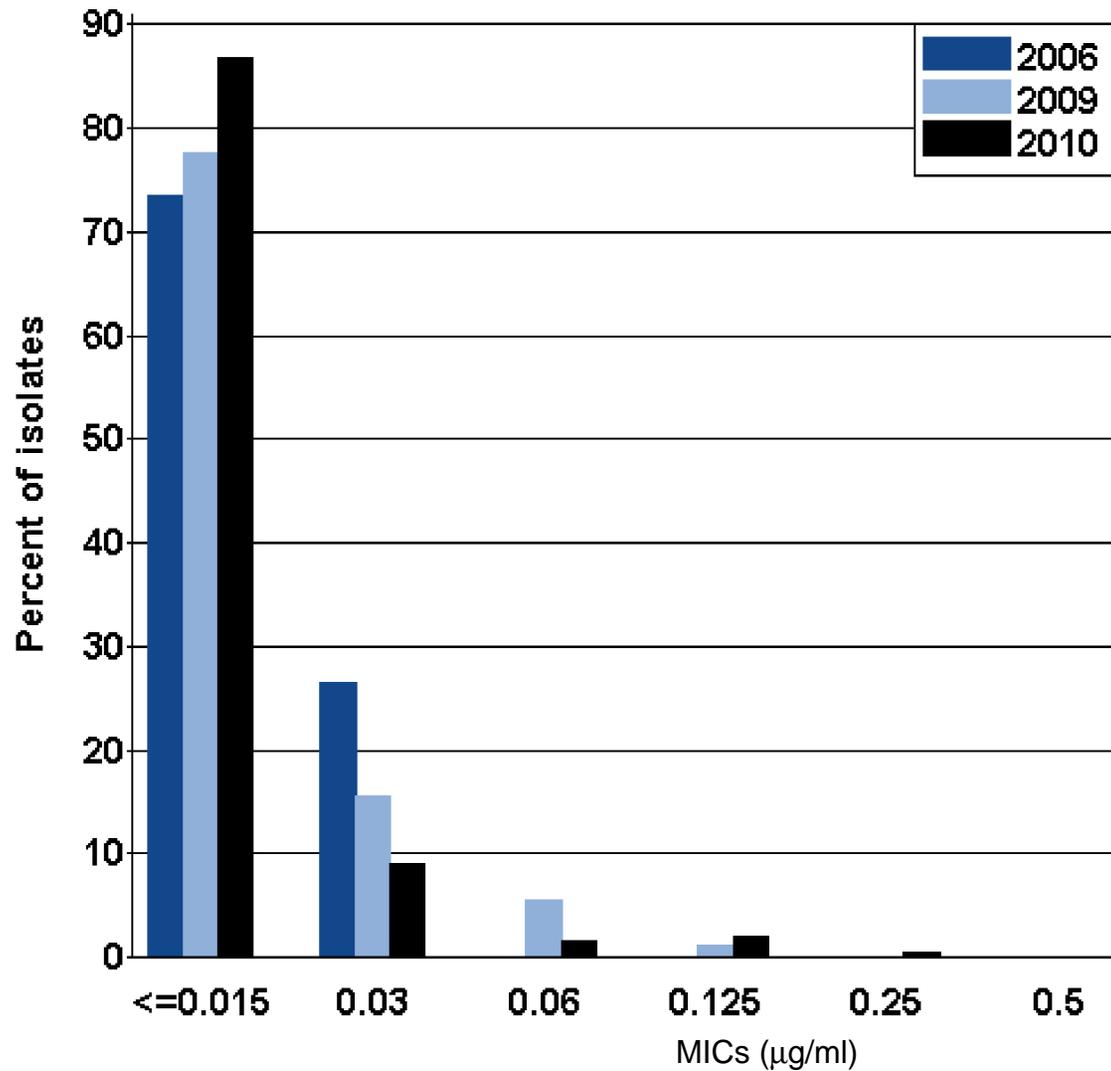

# New York City, New York

Figure G. Distribution of Minimum Inhibitory Concentrations (MICs) to ceftriaxone among GISP isolates, 2006-2010

# New York City, New York

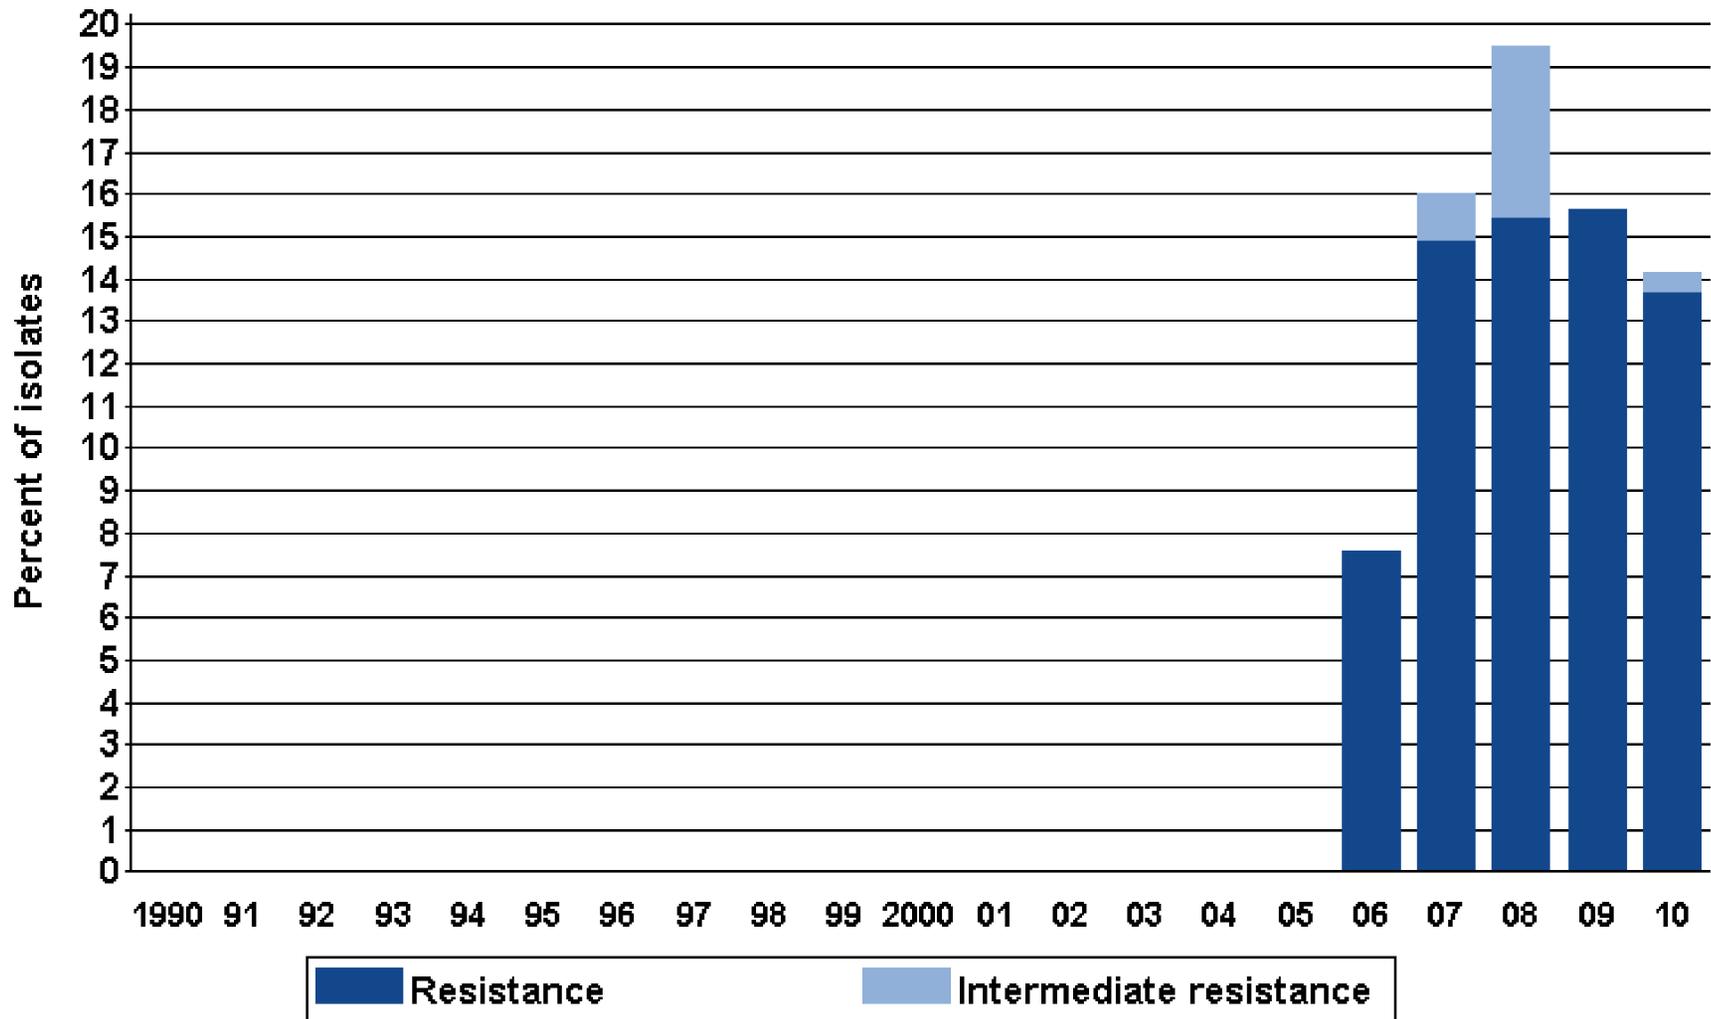

Figure H. Distribution of Minimum Inhibitory Concentrations (MICs) to cefixime among GISP isolates, 2006 and 2009-2010

NOTE: Isolates were not tested for cefixime susceptibility in 2007 and 2008.

# New York City, New York

Figure I. Intermediate resistance and resistance to ciprofloxacin among GISP isolates, 1990-2010\*

Note: Susceptibility to ciprofloxacin first measured in 1990. Site participated in GISP from 2006-2010.

# New York City, New York

Figure J. Distribution of Minimum Inhibitory Concentrations (MICs) to azithromycin among GISP isolates, 2006-2010
