

Health Care Providers:

Help protect our last treatment option for gonorrhea

Gonorrhea is developing resistance to the antibiotics used to treat it. We have only one recommended treatment option left. Help protect it.

Always **follow** CDC screening and treatment guidelines

Report treatment failures to your health department's STD program

Prevent reinfection by notifying and treating partners

CDC is committed to ensuring that we have safe and effective treatment for gonorrhea. **We can't do it without you.**
