# STD Program Management Online Course

## Purpose:

The purpose of this course is to ensure that STD Program Managers have a solid foundation in disease intervention and are capable of building and maintaining effective STD programs. The structure of this 5 week web-based curriculum consists of one to three pre-recorded sessions each week along with an interactive weekly Live Meeting session. It is critical to view the pre-recorded sessions prior to each Live Meeting session. While you are viewing a recording, you have the ability to pause, rewind and move to various places within the recording. This is beneficial when reviewing key information and taking notes.

## Participant Expectations:

- Ensure Live Meeting compatibility and connection prior to the Orientation Session
- Complete all pre-recorded topic modules prior to the Live Meeting sessions covering those topic modules
- Be present and fully engaged in **all** Live Meeting sessions, Week 1 through Week 5
- Please complete all evaluation documents within 48 hours after each Live Meeting session

## Course Structure:

### 1. Mandatory Live Meeting Course Orientation Session:

This required introductory session is designed to identify and minimize any technical difficulties prior to the instructor-led sessions and to familiarize participants with key tools of Live Meeting. In addition to participant, faculty, and staff introductions, we will also address course policies, procedures for participants, and a course overview to include discussion of how to utilize the private course web page.

### 2. Pre-recorded Independent Study Sessions:

The structure of this 4 week web-based curriculum consists of one to three pre-recorded sessions each week along with an interactive Live Meeting session. Pre-recorded sessions will be expected to be reviewed at your leisure prior to all Live Meeting sessions.

### 3. Live Meeting Sessions:

All Live Meeting sessions will offer participants the opportunity to interact with faculty and other participants for the purpose of discussing the week's session topic(s) and will include a question and answer period. Live Meeting sessions may be shorter or longer than described on the **Course Schedule** below. Virtual coffee breaks will be included when appropriate.
