

STD Prevention Science Series

Presented by the Centers for Disease Control and Prevention's Division of STD Prevention and
The American Sexually Transmitted Diseases Association

The **Centers for Disease Control and Prevention's Division of STD Prevention** and the **American Sexually Transmitted Diseases Association** have partnered to bring you the latest research and best practices for STD prevention with the STD Prevention Science Series. This quarterly series will bring lectures on cutting edge issues by scientists and program experts of world renown to all persons interested in the prevention of STDs, including HIV.

SEPTEMBER 3, 2015: 11:00AM – 12:00PM ET

Risks and Resiliencies: HIV and STIs among Gay Men, other Men who have Sex with Men and Transgender Women Globally by **Stefan Baral, MD, MPH, FRCPC**

This talk will present the results of recent systematic reviews of the burdens of HIV and STI among gay men, other men who have sex with men, and transgender women in both high and low and middle income settings as well as a discussion of the vulnerabilities that potentiate risks for adverse health outcomes among these populations.

Stefan Baral is a physician epidemiologist and an Associate Professor in the Department of Epidemiology at the Johns Hopkins School of Public Health (JHSPH). Stefan completed his certification in Community Medicine as a Fellow of the Royal College of Physicians and Surgeons of Canada and Family medicine with the Canadian Council of Family Physicians.

Stefan has also been involved in HIV epidemiology, prevention, and implementation research focused on the epidemiology, human rights contexts, and effective interventions for gay men and other men who have sex with men, transgender women, and female sex workers across Western and Central, and Southern Africa and parts of Asia with support from USAID, CDC, NIH, amfAR, and the Global Fund. In addition, Stefan has led or supported the implementation and evaluation of HIV prevention studies globally characterizing effective combination HIV prevention packages for key populations across multiple low and income countries. Stefan acts as the Director of the Key Populations Program for the Center for Public Health and Human Rights at the JHSPH.
