## List of Tables and Figures

---

### Chapter 1

#### Issues in Reducing Tobacco Use, Summary, and Conclusions

---

- Table 1.1. Characteristics of interventions 9
- Table 1.2. Examples of a qualitative assessment of intervention impact 11
- Figure 1.1. Influences on the decision to use tobacco 7
- Figure 1.2. Overview of relationships among interventions 8

### Chapter 2

#### A Historical Review of Efforts to Reduce Smoking in the United States

---

- Figure 2.1. Adult per capita cigarette consumption and major smoking and health events, United States, 1900–1999 33

### Chapter 3

#### Effective Educational Strategies to Prevent Tobacco Use Among Young People

---

- Table 3.1. School-based and multifaceted educational strategies 66

### Chapter 4

#### Management of Nicotine Addiction

---

- Table 4.1. Percentage of adults aged  $\geq 18$  years who were current cigarette smokers, by sex, race/ethnicity, education, age, and poverty status—United States, National Health Interview Survey, 1997 98
- Table 4.2. Percentage of adults who abstained from smoking cigarettes in the previous year, by sex, race/ethnicity, age, education, and poverty status—United States, National Health Interview Survey, 1991 99
- Table 4.3. Meta-analyses of efficacy (estimated odds ratio and abstinence rates) for seven pharmacotherapies used in tobacco dependence treatment 114

### Chapter 5

#### Regulatory Efforts

---

- Table 5.1. Summary of landmark events in the development of U.S. policies for clean indoor air 198
- Table 5.2. Summary of studies on the effects of a smoke-free workplace on smoking behavior 204
- Table 5.3. Provisions of state laws relating to minors' access to tobacco as of December 31, 1999 212
- Table 5.4. Agencies responsible for enforcing state laws on minimum age for tobacco sales as of fiscal year 1998 218
- Figure 5.1. Sales-weighted nicotine and tar levels in smoke as percentage of 1982 levels 180
- Figure 5.2. Cumulative number of state laws and amendments enacted for clean indoor air, 1963–1998 200
- Figure 5.3. Cumulative number of local laws and amendments enacted for clean indoor air, 1979–1998 202

### Chapter 6

#### Economic Approaches

---

- Table 6.1. Burley tobacco production and value, 1975–1998 297
- Table 6.2. Flue-cured tobacco production and value, 1975–1998 298
- Table 6.3. Selected production and trade statistics for U.S.-grown, unmanufactured tobacco and for U.S.-produced cigarettes, 1975–1999 299
- Table 6.4. Characteristics of the tobacco support program: flue-cured tobacco, 1975–2000 303
- Table 6.5. Characteristics of the tobacco support program: burley tobacco, 1975–2000 304
- Table 6.6. Domestic market shares of U.S. cigarette firms, selected years 307
- Table 6.7. Recent estimates of the price elasticity of cigarette demand from aggregate data 324

- Table 6.8. Estimates of the price elasticity of cigarette demand for adults from individual-level data 328
- Table 6.9. Estimates of the price elasticity of cigarette demand for youth and young adults from individual-level data 330
- Table 6.10. Federal cigarette excise taxes, selected dates, 1864–2002 339
- Table 6.11. Federal excise tax rates (cents/pound) on chewing tobacco, snuff, and pipe tobacco, selected years, 1986–2002 339
- Table 6.12. State cigarette excise taxes and sales taxes (cents/pack) applied to cigarettes 340
- Table 6.13. State tax rates on tobacco products other than cigarettes as of January 1, 2000 342
- Table 6.14. Number of increases and decreases in state excise taxes on cigarettes, July 1, 1950–May 1, 2000 345

- Table 6.15. Cigarette taxes and cigarette prices, 1955–2000 (cents/pack) 346

- Table 6.16. Average retail cigarette price and total taxes per pack (U.S. dollars/pack), selected countries, December 31, 1996 348

## **Chapter 7**

### **Comprehensive Programs**

---

No tables or figures.

## **Chapter 8**

### **A Vision for the Future—Reducing Tobacco Use in the New Millennium**

---

No tables or figures.
