

MICHIGAN

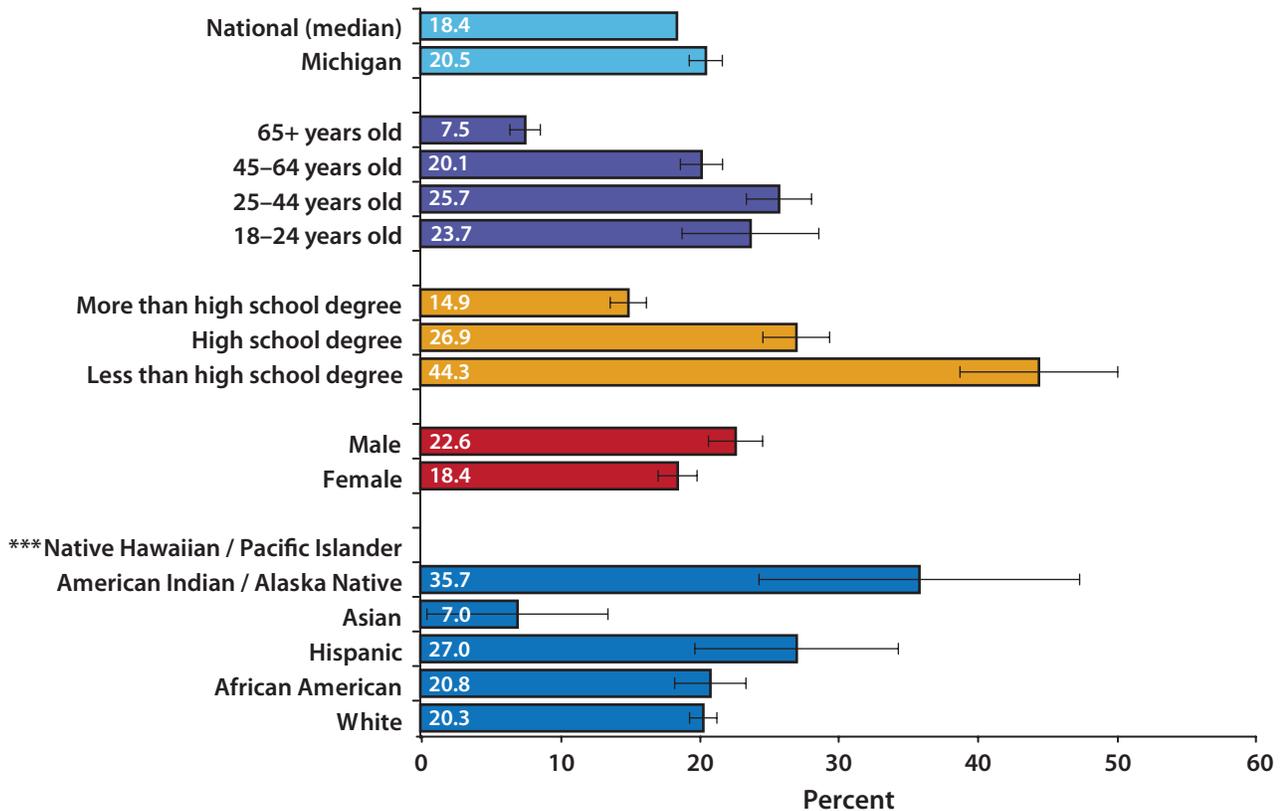

Monitor

In Michigan, 20.5% of the adult population (aged 18+ years)—over 1,557,000 individuals—are current cigarette smokers. Across all states, the prevalence of cigarette smoking among adults ranges from 9.3% to 26.5%. Michigan ranks 36th among the states.

Among youth aged 12–17 years, 10.7% smoke in Michigan. The range across all states is 6.5% to 15.9%. Michigan ranks 24th among the states.

Among adults aged 35+ years, over 14,500 died as a result of tobacco use per year, on average, during 2000–2004. This represents a smoking-attributable mortality rate of 281.9/100,000. Michigan's smoking-attributable mortality rate ranks 34th among the states.

Protect

Michigan does not have a statewide smoke-free law that provides adequate protection against exposure to secondhand smoke in public places. The law preempts local communities from enacting local smoke-free restrictions.

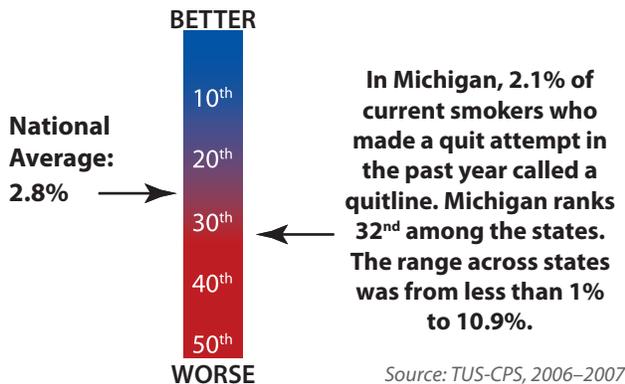

Adults Who Reported Anyone Smoking in Work Area Within Past 2 Weeks

Among adults who work indoors, the percentage who reported anyone smoking in their work area within the preceding 2 weeks has remained higher in Michigan than in the nation overall. Currently, Michigan ranks 34th among the states for workplace exposure, at 8.4%.

Offer

Percentage of Smokers Calling Quitline

Best Practices estimates 8% of smokers could access quitlines each year. In Michigan, 2.1% of current smokers who made a quit attempt in the past year called a quitline.

The Medicaid fee-for-service program in Michigan provides only partial coverage for tobacco dependence treatment. Michigan's Medicaid policy provides coverage for both bupropion and varenicline. Michigan's Medicaid policy provides coverage for individual counseling but not group or telephone counseling.

Medicaid Coverage for Counseling and Medications

Nicotine Replacement	Varenicline	Bupropion	Counseling

MICHIGAN

Warn

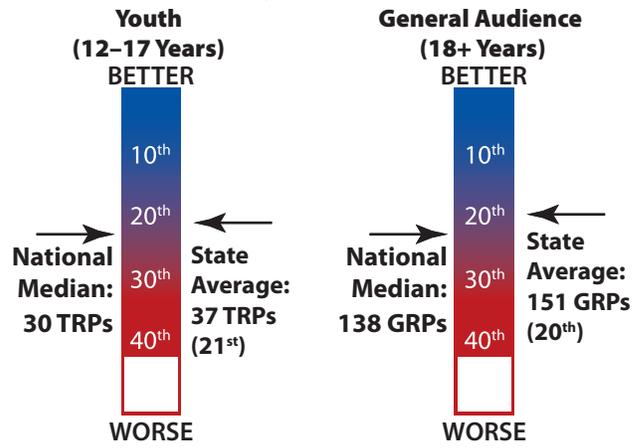

Smoke-free home rules represent awareness of the dangers of secondhand smoke. In Michigan, as in the nation, an increasing number of families have such a rule.

Currently, 70.9% of Michigan homes have this rule. Michigan ranks 43rd among the states.

Households with No-Smoking Rules

Antitobacco Media Campaign Intensity, Per Quarter

Rating point data were available for 42 states and the District of Columbia. *Best Practices* recommendations translate into an average of 800 targeted rating points (TRPs) in effective youth and 1,200 gross rating points (GRPs) in effective general audience antitobacco media campaigns per quarter. Michigan's major media market(s) aired an average of 37 youth TRPs and 151 general audience GRPs per quarter in 2008. Michigan ranks 21st among the states for the number of youth TRPs and 20th among the states for the number of general audience GRPs aired.

Enforce

Michigan preempts local regulation of tobacco industry display of tobacco products in commercial establishments. Michigan allows local regulation on promotions and sampling.

State Allows Local Advertising and Promotion Laws

Display	Promotion	Sampling
No	Yes	Yes

Retail Environment Tobacco Licensure

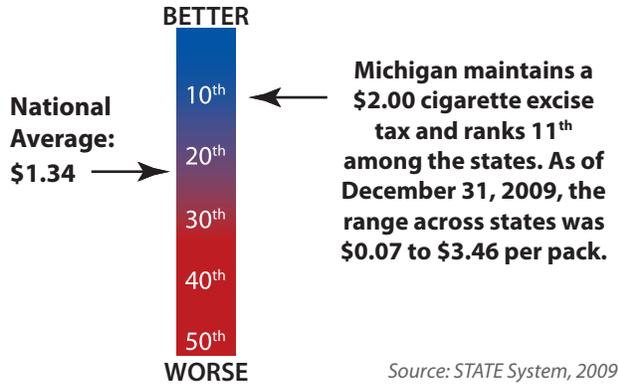

Over the Counter	Vending Machines
No	Yes

Source: STATE System, 2009

Michigan requires establishments selling tobacco products by vending machine, but not over the counter, to be licensed. Currently, 38 states require licensure for both over-the-counter and vending machine sales.

Raise

Amount of Cigarette Excise Tax

Michigan maintains a \$2.00 per pack tax and ranks 11th among the states.

Michigan does not have a minimum price law.
