

MONTANA

Monitor

In Montana, 18.5% of the adult population (aged 18+ years)—over 138,000 individuals—are current cigarette smokers. Across all states, the prevalence of cigarette smoking among adults ranges from 9.3% to 26.5%. Montana ranks 28th among the states.

Among youth aged 12–17 years, 12.2% smoke in Montana. The range across all states is 6.5% to 15.9%. Montana ranks 41st among the states.

Among adults aged 35+ years, over 1,400 died as a result of tobacco use per year, on average, during 2000–2004. This represents a smoking-attributable mortality rate of 276.0/100,000. Montana's smoking-attributable mortality rate ranks 32nd among the states.

Adults Who Reported Anyone Smoking in Work Area Within Past 2 Weeks

Among adults who work indoors, the percentage who reported anyone smoking in their work area within the preceding 2 weeks has remained lower in Montana than in the nation overall. Currently, Montana ranks 24th among the states for workplace exposure, at 6.8%.

Offer

Percentage of Smokers Calling Quitline

Best Practices estimates 8% of smokers could access quitlines each year. In Montana, 9.7% of current smokers who made a quit attempt in the past year called a quitline.

The Medicaid fee-for-service program in Montana provides full coverage for tobacco dependence treatment. Montana's Medicaid policy provides coverage for both bupropion and varenicline. Montana's Medicaid policy does not provide coverage for individual, group, or telephone counseling.

MONTANA

Warn

Smoke-free home rules represent awareness of the dangers of secondhand smoke. In Montana, as in the nation, an increasing number of families have such a rule.

Currently, 79.4% of Montana homes have this rule. Montana ranks 18th among the states.

Households with No-Smoking Rules

Antitobacco Media Campaign Intensity, Per Quarter

Rating point data were available for 42 states and the District of Columbia. *Best Practices* recommendations translate into an average of 800 targeted rating points (TRPs) in effective youth and 1,200 gross rating points (GRPs) in effective general audience antitobacco media campaigns per quarter. Montana has no reported TRP or GRP data.

Enforce

Montana preempts local regulation of tobacco industry sampling. Montana allows local regulation on promotions and display of tobacco products in commercial establishments.

State Allows Local Advertising and Promotion Laws

Retail Environment Tobacco Licensure

Over the Counter	Vending Machines
Yes	Yes

Source: STATE System, 2009

Montana requires all establishments selling tobacco products over the counter and by vending machine to be licensed. Currently, 38 states require licensure for both over-the-counter and vending machine sales.

Raise

Amount of Cigarette Excise Tax

Montana maintains a \$1.70 per pack tax and ranks 17th among the states.

Montana has a minimum price law. Wholesalers must mark up cigarettes by 5.75% and retailers must mark up cigarettes by at least 10%. This law has the effect of limiting the amount of discounting that can be offered through coupons and other types of sales promotions.

Approximately 12% of the annual revenue generated from state excise taxes and settlement payments would fund Montana’s tobacco control program at the *Best Practices* recommended amount. However, in 2007, Montana’s funding for tobacco control was 57.3% of the recommended level. Montana ranks 7th among the states
