

**MAP 3-1. DISTRIBUTION OF DENGUE IN THE AMERICAS AND THE CARIBBEAN<sup>1 2</sup>**

<sup>1</sup> Risk areas are shown on a national level except for where evidence exists of different risk levels at sub-national regions. Areas that are too small to be seen on the regional maps are labeled in white or gray depending on their risk categorization.

<sup>2</sup> Based on surveillance data, official reports, published research, and expert opinion, including data from Brady et al. Refining the Global Spatial Limits of Dengue Virus Transmission by Evidence-Based Consensus. PLoS Negl Trop Dis 6(8): e1760 doi: 10.1371/journal.pntd.0001760 (2012). It was compiled by the CDC Dengue Branch in collaboration with the University of Oxford.
