

Centers for Disease Control
and Prevention (CDC)
Atlanta GA 30333

November 10, 2021

Dear Tribal Leader:

On behalf of the Centers for Disease Control and Prevention (CDC) and the Agency for Toxic Substances and Disease Registry (ATSDR), I invite you to join this upcoming meeting that will convene leaders from tribal nations, CDC, and ATSDR:

CDC/ATSDR Tribal Advisory Committee (TAC) Meeting

February 2, 2022, 1:00–6:00 pm (ET)

February 3, 2022, 1:00–4:00 pm (ET)

The meeting will be held virtually through Zoom. **To register for the CDC/ATSDR TAC Meeting, please use the [registration form](#).** Once registered, you will receive a unique link to access the meeting.

The 23rd Biannual TAC Meeting will provide opportunities for tribal leaders to hear about the public health issues affecting their tribal nations. These topics will include, but are not limited to, tribal priorities for CDC and ATSDR, the COVID-19 pandemic response, and CDC Centers, Institute, and Offices (CIO) programmatic highlights. We look forward to productive discussions about these critical topics. The agenda will be available on the CDC Tribal Health website in early January 2022 at www.cdc.gov/tribal.

For more information about the meeting, please contact Commander Jenna Meyer, Deputy Director, Office of Tribal Affairs and Strategic Alliances, at JMeyer2@cdc.gov or 404-394-5870.

Your input is very important to us as we work to improve tribal access to CDC and ATSDR programs and services and to strengthen partnerships with tribes and American Indian and Alaska Native (AI/AN) community organizations. CDC and ATSDR remain committed to respecting tribal sovereignty while working together to leverage capacity, expertise, and resources to achieve the greatest impact on the health issues affecting AI/AN communities.

Sincerely,
