

ADVISORY COMMITTEE ON IMMUNIZATION PRACTICES

VACCINES INCLUDED IN THE

VACCINES FOR CHILDREN PROGRAM

The resolution is updated to reflect the addition of a vaccine to prevent mpox to the VFC program with ACIP's adoption of VFC resolution 10/23-2.

The ACIP proposes that vaccines to prevent the following diseases be included in the Vaccines for Children (VFC) program:

COVID-19

Dengue

Diphtheria

Haemophilus influenzae type b

Hepatitis A

Hepatitis B

Human Papillomavirus

Influenza

Measles

Meningococcal

Mpox

Mumps

Pertussis (whooping cough)

Pneumococcal

Poliomyelitis

Respiratory syncytial virus

Rotavirus

Rubella

Tetanus

Varicella

The ACIP includes in the Vaccines for Children (VFC) program vaccines which are used to prevent the 19 diseases listed above; to be administered as provided in other VFC resolutions.
