Outline

- Hepatitis B Supply Update
 - Adult
- Discontinuation of ZOSTAVAX
- CDC Vaccine Supply/Shortage Page

Adult Hepatitis B Vaccine

- Merck will be returning to the US Market the week of July 20th for adult and dialysis formulations of Recombivax HB
- Merck will have sufficient supply to cover its historical demand for both vaccines
- Both formulations will be available in vial image only

Discontinuation of ZOSTAVAX

- Effective July 1, 2020, Merck will no longer sell ZOSTAVAX in the US
- Merck does not have a specific date as to when the supply of ZOSTAVAX will be depleted; all remaining product has an expiry date of no later than November 2020
- Merck communicated this information directly to their customers in early June
