- Pfizer-BioNTech COVID-19 Vaccine
- **BEYOND-USE LABEL**
  - Store vaccine between 2°C and 8°C (36°F and 46°F) for up to 10 weeks.
  - Ages: 12 years and older
  - Let number(s) ______________
  - Today's date ____________/________/_______
  - Use by Date* ____________/________/_______

---

**Best Practices**

All Pfizer-BioNTech COVID-19 Vaccine products can be:
- Stored at ultra-cold frozen temperatures until the expiration date. Use storage labels to help staff easily identify the correct product (monovalent or bivalent) based on the recipient's age.
- Stored at refrigerated temperatures for up to 10 weeks. Use these tracking labels to identify when the beyond-use date for refrigerated storage has been reached. Vaccine should NOT be used after this date.
- Transported in a portable ultra-cold freezer, refrigerator or container qualified to maintain the appropriate temperatures with a digital data logger to monitor the temperature for up to 12 cumulative hours. See Transporting Pfizer-BioNTech COVID-19 Vaccines for detailed guidance.

---

Additional information on storing and handling Pfizer-BioNTech COVID-19 Vaccine can be found in:
