

“The Appointment” : 30 second PSA

WIFE: I made us appointments to get vaccinated.

HUSBAND: I already got the flu vaccine.

WIFE: There are other diseases we can protect ourselves from. I don't have time to get sick...or take care of husband who doesn't listen to his wife!

HUSBAND: I do *a lot* to stay healthy.

WIFE: So does Bob but he still got shingles. And Lena got whooping cough.

MALE VO: Don't wait, vaccinate! It's one more thing you can do to stay healthy. To learn more, talk to your healthcare professional, go to cdc.gov/vaccines or call 1-800-CDC-INFO.
