# Trend and Single-Year Sociodemographic Characteristics Report
ChildVaxView

Map selection tool: Click to choose the sociodemographic characteristic and year. You must choose the year to see the data.

Trend line graph: Hover over a data point to see the area name, estimate, and year. The single-year map does not include the trend graph.

Map title: Describes sociodemographic characteristics and year currently being viewed.

Bar graph: Click a bar to select an area on the bar chart. The area will highlight on the map, trend line graph, and data table. Hover over the bar to see the area name and estimate.

Data notes and footnotes: Scroll to see an interactive display with abbreviations, data notes, and footnotes describing the data.

Legend: To customize the legend, scroll over and click the gear symbol in the top right corner. The legend settings menu allows you to customize the displayed color, number of classes, and direction of classifiers.

Data table: Click the title to toggle between state/local area and national/regional estimates.

Highlight an area in the data table to select it. The area will also be highlighted on the map and bar chart.

Map: Click an area on the map to select it. The area will highlight on the bar chart and data table. Hover over the area to see the area name and estimate.

States

Data Notes and Footnotes

- Technical Notes (more information on vaccine abbreviations, dose definitions, and vaccine series)

- Technical Abbreviations: CI=confidence interval (95% confidence intervals); NA=not available (estimate not reported because data not collected or unweighted sample size for the denominator was <30 or (95%CI half width/estimate) > 0.788); MSA=Metropolitan Statistical Area.

- Estimates with confidence intervals >20 may not be reliable.

- Areas included in the NIS-Child varied by survey year. Data from U.S. Territories were not included in national estimates.

- Vaccination coverage estimates included only children with adequate provider-
