

CDC/HHS logo. Immunization. Power to Protect.

Hashtag Vaccines By The Numbers.

In recent years.

Two arrows moving out over map of United States and 92% appears.

National measles, mumps, and rubella (MMR) vaccination coverage reached nearly 92%.

Graphic of small child.

Despite this rate, 1 in 12 children does not receive their first dose of MMR on time.

Graphic of two people at a table, one person has dots floating around them that move to the other person.

Anyone who is not vaccinated is at risk of getting measles.

Map of United States with various size dots appearing across the map.

And measles outbreaks still happen in the U.S.
