

## CDC's Vaccine Information Statement Webpage

http://www.cdc.gov/vaccines/hcp/vis/index.html

The screenshot shows the CDC Vaccine Information Statement (VIS) webpage. The main content area is titled "Vaccine Information Statements" and features a list of "Multi-, Routine-, & Non-Routine-Vaccine VISs". The "Multi" section is highlighted with a red banner stating: "THE MULTI-VACCINE VIS CURRENTLY BEING REVISED AND SHOULD BE AVAILABLE AGAIN BY MID-2014." Below this, there are sections for "Routine" and "Non-Routine" vaccines, each with a list of vaccine types and their last update dates. On the right side, there are several informational boxes: "What's New with VISs" (listing updates for Adenovirus, Multi-Vaccine, and Td/Hib), "What are VISs?", "How to Use VISs" (with sub-sections for instructions, facts, and frequently asked questions), and "Did You Know?" (addressing problems with current versions). At the top right, there is a "Get email updates" form. At the bottom right, there is a "Contact Us" section with the CDC's address and phone numbers. A sidebar on the left contains navigation links like "What's New with VISs", "About VISs", "VIS Barcodes", and "View on Mobile Device".
