Meningococcal Disease Surveillance Worksheet
( Abbreviated Worksheet Option)

1. State (residence of patient) (1-2) PID-11.4
   - [ ] [ ] [ ]

2. County (residence of patient) (3-12) PID-11.9
   - [ ] [ ] [ ]

3. State ID (13-18) 77993-4
   - [ ] [ ] [ ]

4. CDC ID (19-24) 77997-5
   - [ ] [ ] [ ]

5. Hospitalized (25) (if Yes, date of admission) 77974-4
   - [ ] Yes
   - [ ] No
   - [ ] Month
   - [ ] Day
   - [ ] Year

6. Date of Birth (32-37) PID-7
   - [ ] [ ] [ ]

7a. Age (38-39)
   - [ ] Days OBX-6 for 77998-3
   - [ ] Months
   - [ ] Years

8. Sex (42) PID-8
   - [ ] Male
   - [ ] Female

9a. Race (43)
   - [ ] Native Amer./Alaskan Native
   - [ ] Asian/Pacific Islander
   - [ ] African American
   - [ ] White
   - [ ] Other
   - [ ] Unknown

9b. Ethnic Origin (44)
   - [ ] Hispanic
   - [ ] Non-Hispanic

10. Outcome (45) 77978-5
    - [ ] Survived
    - [ ] Died
    - [ ] Unknown

11. Physician’s Name

12. Type of Infection Caused By Organism: (check all that apply) INV298
    - [ ] Primary Bacteremia (46)
    - [ ] Cellulitis (50)
    - [ ] Septic Arthritis (54)
    - [ ] Meningitis (47)
    - [ ] Epiglottitis (51)
    - [ ] Conjunctivitis (55)
    - [ ] Otitis Media (48)
    - [ ] Peritonitis (52)
    - [ ] Other (specify) (56)
    - [ ] Pneumonia (49)
    - [ ] Pericarditis (53)

13. Bacterial Species Isolated LAB278 y Normally Sterile Site* (59)
    - [ ] Neisseria meningitidis
    - [ ] Streptococcus pneumoniae* (pneumococcus)
    - [ ] Haemophilus influenzae
    - [ ] Other bacterial species* (specify: Include mycobacteria, fungi)
    - [ ] Group B Streptococcus
    - [ ] Listeria monocytogenes

14. Sterile Sites from Which Organism isolated: (check all that apply) 66746-9
    - [ ] Blood (62)
    - [ ] Pleural Fluid (64)
    - [ ] Pericardial Fluid (66)
    - [ ] Placenta (68)
    - [ ] CSF (63)
    - [ ] Peritoneal Fluid (65)
    - [ ] Joint (67)
    - [ ] Other Normally Sterile Site (69) (Specify) (70-71)

NEISSERIA MENINGITIDIS

16a. What was the serotype? (78)
    - [ ] Group A
    - [ ] Group Y
    - [ ] Unknown
    - [ ] Group B
    - [ ] Group W135
    - [ ] Other (specify)
    - [ ] Not groupable

16b. If N. meningitidis was isolated from blood or CSF, was it resistant to: LABAST6
    - [ ] Sulfas (81)
    - [ ] Yes
    - [ ] No
    - [ ] Not tested or unknown
    - [ ] Rifampin (82)
    - [ ] Yes
    - [ ] No
    - [ ] Not tested or unknown

17. Did the patient ever receive a meningococcal (conjugate or polysaccharide) vaccine? (83)
    - [ ] Yes
    - [ ] No
    - [ ] Unknown
