Average annual incidence of West Nile virus neuroinvasive disease reported to CDC by county, 1999-2020

Source: ArboNET, Arboviral Diseases Branch, Centers for Disease Control and Prevention

West Nile virus neuroinvasive disease incidence maps present data reported by state and local health departments to CDC's ArboNET surveillance system. This map shows the average annual incidence of human neuroinvasive disease (e.g., meningitis, encephalitis, or acute flaccid paralysis) by county from 1999 to 2020 with shading ranging from 0.01-0.49, 0.50-0.99, 1.00-1.49, 1.50-1.99, and greater than 2.00 per 100,000 population.
