

OE22-2203 Strengthening U.S. Public Health Infrastructure, Workforce, and Data Systems

Building a grant program to meet today's needs

OE22-2203 Strengthening U.S. Public Health Infrastructure, Workforce, and Data Systems is a groundbreaking investment that supports critical public health infrastructure needs of jurisdictions across the United States. This multi-component grant will help ensure that U.S. public health systems are ready to respond to public health emergencies like COVID-19 and to meet the evolving and complex needs of the communities and populations they serve. The grant creates a foundation for CDC's Public Health Infrastructure work and provides maximum flexibility so jurisdictions can address their most pressing needs.

This multicomponent grant includes a total of \$3.945 billion over 5 years

A1. Workforce	\$3 billion (1x funding) Recruit, retain, support, and train the Public Health Workforce
A2: Foundational Capabilities	\$700 million (\$140M annual) Strengthen systems, processes, and policies
A3: Data Modernization	\$200 million (\$40M annual) Deploy scalable, flexible, and sustainable technologies
B. Technical Assistance & Training	\$45 million (1x funding) Training, Evaluation, and Coordination support for Component A

Eligible applicants include

- Component A: Public Health Infrastructure
 - State governments, including the District of Columbia
 - Local governments, including counties, cities, and townships that serve
 - County population of 2,000,000 or more
 - City population of 400,000 or more
 - U.S. territories and freely associated-state governments
- Component B: Technical Assistance for Component A
 - Open competition

Note: Applicants are to only apply to Component A or to Component B of this Notice of Funding Opportunity, but not both. Bona fide agents are eligible to apply to Component A or Component B on behalf of an eligible applicant.

Three key principles will guide recipient work

- Use relevant **data and evidence** to inform planning, implementation, and evaluation
- Ensure resources support **diversity and health equity**
- Collaborate with a wide range of **partners to maximize program success**

Key Dates

- June 16, 2022: NOFO published on Grants.gov
- June 29, 2022: Applicant informational calls
- June 30, 2022: Optional letters of Intent (LOI) due from applicants
- August 15, 2022: Application period closes
- November 22, 2022: Notice of Awards (NOA) issued
- November 30, 2022: Budget period start date
