

# CDC WORKSITE HEALTH SCORECARD

## 2020 Large Employer Profile

The CDC [ScoreCard](#) is a tool to help employers assess whether their health promotion programs are based on the best evidence for improving employees' health and wellness.

### What Evidence-Based Practices Does the ScoreCard Assess?

#### PROGRAMS

Opportunities to begin, change, or maintain health behaviors

#### POLICIES

Formal or informal statements to protect or promote health

#### ENVIRONMENTAL SUPPORTS

Physical factors at work that help protect and enhance health

#### BENEFITS

Overall compensation, including health insurance

*Large employers are defined as those with 751 or more employees, including full-time, part-time, and temporary.*

### How Are Large Employers Doing?

**34%** of large employers will spend the same amount or more on wellness programs next year.

**76%** of large worksites use local hospitals and other health care professionals for their wellness programs.

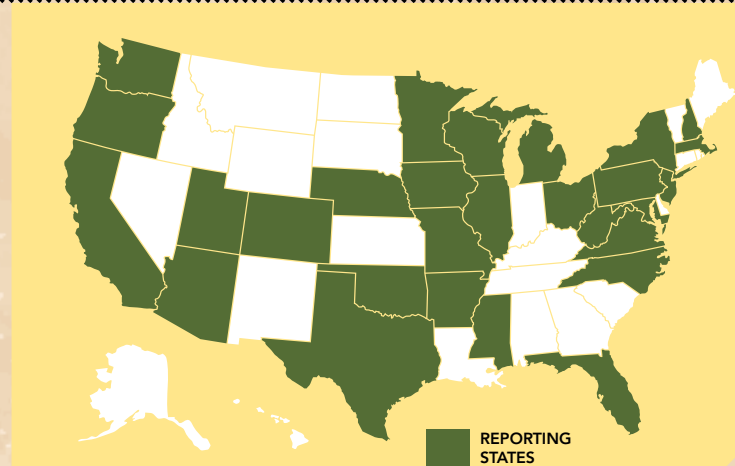

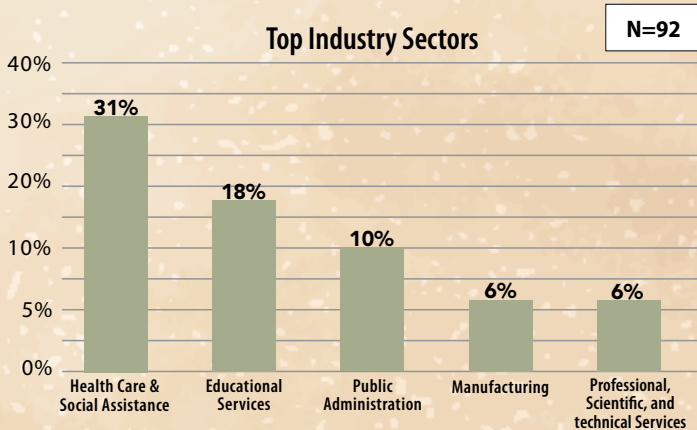

Large employers have reached **583,812** employees with ScoreCard strategies.

**84%** of large worksites have a paid health promotion coordinator.

Average large employer has **114** of **152 (75%)** ScoreCard strategies in place.

### Who Are the Large Employers Using the ScoreCard?

#### Top Industry Sectors

118 worksites from 92 employers in 28 states submitted ScoreCards

#### Business Type

Centers for Disease Control and Prevention  
National Center for Chronic Disease Prevention and Health Promotion
