Title XXXIII of the Public Health Service Act established within the Department of Health and Human Services (HHS), the World Trade Center (WTC) Health Program, to be administered by the Administrator of the World Trade Center Health Program. The WTC Health Program provides: (1) Medical monitoring and treatment benefits to eligible emergency responders and recovery and cleanup workers (including those who are Federal employees) who responded to the September 11, 2001, terrorist attacks, and (2) initial health evaluation, monitoring, and treatment benefits to residents and other building occupants and area workers in New York City, who were directly impacted and adversely affected by such attacks (“survivors”). The administration of the Advisory Committee established under section 300mm–1(a) is delegated to the Director of NIOSH in his role as Administrator of the World Trade Center Health Program. The charter renewal is currently in process.

Matters for Discussion: The agenda for the Advisory Committee meeting includes a review of the World Trade Center Health Program’s (WTCHP) structure and function, activities, member services, and communications. An overview of the WTC health research, the WTC Registry, and lessons learned in addressing WTC-related mental health issues will also be presented. The Advisory Committee will deliberate on specific questions related to: (1) Addressing the need for research on developmental or health effects in children; (2) developing robust and appropriate comparison groups to improve the validity and interpretability of WTC research; (3) improving benefits counseling and psychosocial support for members serviced by the National Provider Network; and (4) reviewing the WTCHP’s “Research-to-Care” model.

The agenda is subject to change as priorities dictate.
