

MAKE SURE  
TO GET YOUR  
**ZIKA TEST  
RESULTS**

[www.cdc.gov](http://www.cdc.gov)

**Your doctor ordered Zika testing for you on \_\_\_\_\_ (date).**

- If you have not received your results within 4 weeks, by \_\_\_\_\_ (date), please call our office at \_\_\_\_\_.
- We understand that waiting for test results can be very stressful. It can take up to 4 weeks to receive your results—maybe longer during the summer months because only a few laboratories can test for Zika virus.
- **If you haven't heard from your doctor, you could still have Zika. This is why it is very important that you call our office for your test results.**
