Sick with chikungunya, dengue, or Zika?

Protect yourself and others from mosquito bites the first week you are sick. If a mosquito bites you, it can get infected, bite other people, and make them sick.

See your doctor if you develop a fever with:
- Muscle or joint pain
- Headache or pain behind eyes
- Rash
- Red eyes

Protect yourself from mosquito bites:
- Wear long-sleeved shirts and long pants.
- Use door and window screens to keep mosquitoes outside.
- Use insect repellent.
