

DIVISION OF HUMAN DEVELOPMENT AND DISABILITY STRATEGIC PLAN FY2024–2028

VISION

People with disabilities and developmental concerns achieve their **optimal health and well-being**

MISSION

DHDD leads **public health efforts** for people with disabilities and developmental concerns across the lifespan through **data**, evidence-informed **strategies**, and **partnerships**

Goal 1 | Provide high-quality, timely, and actionable data

Goal 2 | Support the awareness and implementation of impactful interventions inclusive of PSE changes

Goal 4 | Enhance coalitions, strategic partnerships, and technical assistance

Goal 3: Strengthen systems and support across the lifespan and at critical transition periods

- 1.1: Enhance population-based surveillance, epidemiology, and data systems across the lifespan
- 1.2: Advance efforts to increase data integration and linkage
- 1.3: Implement processes to accelerate the dissemination and accessibility of high-quality, evidence-based data
- 1.4: Support communities to have and use data for action and impact for people with disabilities and developmental concerns
- 1.5: Use data to identify intersecting health inequities experienced by people with disabilities and developmental concerns

- 2.1: Enhance understanding of policy, systems, and environmental (PSE) factors on health and well-being outcomes across interventions
- 2.2: Increase internal and external capacity to promote PSE factors and integrate into interventions
- 2.3: Evaluate and encourage wide adoption of interventions that promote equity for people with disabilities and developmental concerns

- 3.1: Advance early identification of developmental concerns and disabilities
- 3.2: Use data to better understand healthcare and service receipt and access at critical transition periods
- 3.3: Increase the awareness and promote implementation of effective strategies to address gaps in services and supports and barriers to access across the lifespan
- 3.4: Promote the systemic advancement of disability inclusion

- 4.1: Create an aligned partnership vision with shared measures
- 4.2: Increase collaboration and information-sharing to advance collective priorities
- 4.3: Strengthen technical assistance across partners that support people with disabilities and developmental concerns
- 4.4: Maintain and enhance results-based engagement with diverse strategic partners
